

ARS 290

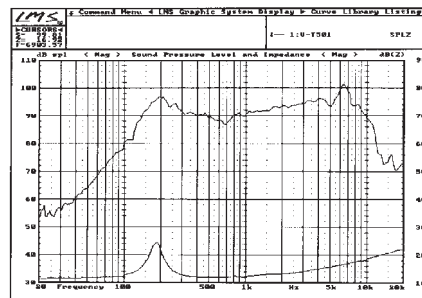

ARS 290

Speaker box with switch

ARS 290 is a model that satisfies especially low prices condition and therefore we use it in larger amounts in sounding public spaces. It is a closed model for wall mounting, the recommended mounting height is about 2-3 meters from the floor. We supply model with a power (volume) switch. Model qualify override E / M 3-wire method.

Frequency response

Technical label

ARS 290
